

1st December 2013

Dear Julia and the teachers of Lockerbie College,

This letter is long overdue. Robin and I would like to thank all of you for your assistance and nurturing of our daughter Nancy while she has been a student at Lockerbie College. With the dedication that you all have given her she would not be where she is today.

Your support and reasoning classes are a plus to help the students with real life situations; parents should really consider them as part of their child's studies.

Nancy's self confidence has improved, she has become very independent and her reasoning in situations is incredible. Thank you, Julia!

Nancy is at Erdiston Teachers' College part time she has completed her 1st certificate and passed of Early Childhood Education and she has started the 2nd certificate.

As we all know Nancy is a very loving and caring person and she is growing up to be a wonderful young adult.

Nancy works as a kinder garden teacher at a private day care school in the mornings and in the evenings she has her own private job as a care taker of two kids and one evening a week she goes to Erdiston Teachers' College.

We would like to wish you, your teachers, your students and Lockerbie College all the best for the future and we hope and pray that each student that passes through the doors of Lockerbie College reaches his/her full potential.

Keep doing what you are doing for the students what you do really make a difference.

Thanking you so much

Yvette & Robin Edghill
